

Shuo Wei

School of Mathematics, Shandong University

shuowei@mail.sdu.edu.cn

Personal Homepage

Jinan, Shandong, China

Research Interests

Extremal graph theory and digraph theory, especially Hamiltonicity, spanning structures, subdivisions, factors and tilings, and oriented discrepancy.

Current Position

2026–present **Ph.D. Student in Operations Research and Cybernetics**, School of Mathematics, Shandong University. Advisor: [Prof. Jin Yan](#).

Education

2024 **B.S.**, North China University of Water Resources and Electric Power.

Publications and Preprints

Preprints

1. **Hamiltonian Squares in Digraphs under Semi-Degree Conditions**
Zhilan Wang, **Shuo Wei**, and Jin Yan
Preprint, 2026.
2. **Spanning H -subdivisions with Prescribed Path Lengths**
Zhilan Wang, **Shuo Wei**, and Jin Yan
[arXiv:2608.15786](#) [math.CO], 2026.
3. **Nearly Balanced Spanning Subdivisions in Dense Digraphs**
Zhilan Wang, **Shuo Wei**, and Jin Yan
[arXiv:2608.14432](#) [math.CO], 2026.
4. **An Exact Dominant Degree Condition for Transitive Tournament Factors in Digraphs**
Yufei Chang, **Shuo Wei**, and Jin Yan
[arXiv:2608.10445](#) [math.CO], 2026.
5. **The Exact Minimum Total Degree Threshold for the Square of a Hamilton Cycle in Digraphs**
Zhilan Wang, **Shuo Wei**, and Jin Yan
[arXiv:2607.13831](#) [math.CO], 2026.
6. **Oriented Discrepancy of the Square of Hamilton Cycles**
Yufei Chang, Yangyang Cheng, Zhilan Wang, **Shuo Wei**, and Jin Yan
[arXiv:2605.20746](#) [math.CO], 2026.
7. **An Ore-type Theorem for Oriented Discrepancy of Hamilton Cycles**
Yufei Chang, Yangyang Cheng, Zhilan Wang, **Shuo Wei**, and Jin Yan
[arXiv:2603.18915](#) [math.CO], 2026.

Talks and Presentations

Jul. 2026 **Hamiltonian Squares in Directed Graphs**, Zibo, Shandong, China.
